Abstract: The summary should be formatted single-spaced and sized for A4 paper (21cm × 29.7cm) with 2.5cm margins on all sides of the page. All text, references, tables, figures, and photographs should fit on 4-5 pages. This page is the template (12 pt).

1. INTRODUCTION

The title should be written in 12 pt bold capital letters and centered at the top of the first page. The font should be “Times New Roman” throughout. The authors' names, complete organizational affiliations, mailing addresses, and E-mail addresses should be in 11 pt font size, one line (11pt) below the title as shown above.

The abstract of about 50 words should be placed one line (11pt) below the last E-mail address. The main text should start two lines below the abstract and be written in a two-column format with 8mm spacing between columns using 10 pt font. Indent each paragraph by 3.5mm.

2.1 Major Subsections

The subsection heading should be left justified in bold letters capitalizing the first letter of each word and numbered using Arabic numerals (2.1, 2.2, ...).

2.2 Equations

Equations should be centered in the column and numbered sequentially. Place the equation number to the right of the equation with right justification within its column. An example would be

$$\frac{d^2x}{dt^2} = -\omega^2x + \lambda x^3 + b \cos(\omega t) \quad (1)$$

When referring to an equation, use the format as Eq. (1).

3. FIGURES AND PHOTOGRAPHS (if any)

Place figure and photograph captions directly below each figure and photograph. The captions numbered sequentially using Arabic numerals should be centered.
